

ChiliProject - Bug # 765: Issue details page - move tracker type and issue id to the top breadcrumb area

Status:	Open	Priority:	Normal
Author:	Eric Davis	Category:	User interface
Created:	2011-12-10	Assignee:	Eric Davis
Updated:	2011-12-10	Due date:	
Remote issue URL:			
Affected version:			
Description: Moving the tracker type and issue id into the top breadcrumb actually looks really good. The problem is that how the top breadcrumb is built, we can't easily add items up there so it will need to be refactored first. Before and after screenshots attached (from editing the HTML).
