Description: 3.0.0-beta1 is almost ready to be released but I'm unable to complete it right now. I've gotten to step 6 of [[HowTo Release]] for the Major version, except I haven't created a release branch yet (step 4). Is anyone available to finish this release in the next few days?

Thanks for starting the release.

I'll try to finish it tomorrow. Then you just need to publish the blog post :)
