- Assignee deleted (Gregor Schmidt)

- Status changed from Open to Ready for review

The pull request is at https://github.com/chiliproject/chiliproject/pull/145.

I tried to add a test for that, but could not get my head around assert_tag and I could not find examples on how to use capybara for that. Sorry.

Gregor

Looks fine to me, I'm in the middle of something else so I can't merge it without stopping what I'm testing right now. Adding a test for this wouldn't really be that useful.
