

## ChiliProject - Bug # 815: Inconsistent margin used for gravatars

<b>Status:</b>	Closed	<b>Priority:</b>	Low
<b>Author:</b>	Andreas Schuh	<b>Category:</b>	User interface
<b>Created:</b>	2012-01-04	<b>Assignee:</b>	Holger Just
<b>Updated:</b>	2012-01-17	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>	3.0.0		
<b>Description:</b>	Some gravatars have a margin (CSS padding actually), but others don't. In particular, the gravatar on the user profile has a margin, but not the gravatars on the issue#show view.  See applications.css "h[24] img.gravatar".

This patch takes the RedmineWikiFormatting page and makes it available as a static HTML file locally. This way, intranet deployments, or other deployments do not need to be dependent upon redmine.org in order to display this help.

Closes #815.

[#774 #815 #807] Fix styles used for gravatars in issues

Gravatars now generally have a border and are displayed equally. The Issue history formatting is cleaned up with much of the positioning magic removed in favor of a simple float.

- Target version set to 3.0.0
- Assignee set to Holger Just
- Affected version set to 3.0.0
- Status changed from Open to Closed

I believe I fixed this so that all gravatars (at least on the issue page) now have a 2px padding and border.
