

## ChiliProject - Bug # 822: Initial journal creation fails because of the missing log\_encoding of Repositories

<b>Status:</b>	Closed	<b>Priority:</b>	Normal
<b>Author:</b>	Holger Just	<b>Category:</b>	Journals / History
<b>Created:</b>	2012-01-10	<b>Assignee:</b>	Holger Just
<b>Updated:</b>	2012-01-11	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>	2.6.0		
<b>Description:</b>	The creation of the initial journals (source:db/migrate/20100714111653_build_initial_journals_for_acts_as_journalized.rb) fails for old setups because the current Repository model assumes that the @log_encoding@ column is present which is created a bit later (source:db/migrate/20110228000000_add_repositories_log_encoding.rb)  See <a href="https://gist.github.com/61b3e1379a65b96d5bde">https://gist.github.com/61b3e1379a65b96d5bde</a> for a stack trace (by @mb_the_latter@ on [[IRC]])
