

## ChiliProject - Bug # 829: "Registration succeeded" page does not tell about required activation

<b>Status:</b>	Open	<b>Priority:</b>	Normal
<b>Author:</b>	H Goebel	<b>Category:</b>	User accounts
<b>Created:</b>	2012-01-12	<b>Assignee:</b>	
<b>Updated:</b>	2012-01-12	<b>Due date:</b>	
<b>Remote issue URL:</b>			
<b>Affected version:</b>			
<b>Description:</b>	When registering a new user, one gets the message  *"Ihr Konto ist aktiviert. Sie können sich jetzt anmelden."* (Your account is activated, you can now log in.)  But this is not true, as activation is required. One has to wait for the email and click the activation link first. This is very confusing!		

### Associated revisions
