<b>Remote issue URL:</b>			
<b>Affected version:</b>	2.6.0		
<b>Description:</b>	<pre>&lt;pre&gt; \$ ruby --version ruby 1.9.3p0 (2011-10-30) [i386-mingw32] &lt;/pre&gt;  h3. ChiliProject 2.6 Ruby 1.9.3  !chili-2.6.png!  h3. Redmine Rails 3.1.3 Ruby 1.9.3  !redmine-rails-3.1.3-ruby-1.9.3.png!</pre>		

### History

#### 2012-02-01 03:23 pm - Toshi MARUYAMA

Sorry, subject "attachement" is typo.

#### 2012-02-14 07:12 am - Pavel Nakonechny

In 

```
<pre>app/models/attachment.rb</pre>
```

replace 

```
<pre>@filename = just_filename.gsub(/[\^w\.-]/, '_')</pre>
```

  
with 

```
<pre>@filename = just_filename.gsub(/[\^?%\^*\^:\^"'\^<>]+/, '_')</pre>
```

#### 2012-03-17 02:48 am - Toshi MARUYAMA

It seems following lines fix this problem.

```
<pre>
<code class="ruby">
  if o.respond_to?(:original_filename)
    o.original_filename.force_encoding(Encoding::UTF_8)
    raise ActionController::InvalidByteSequenceErrorFromParams unless o.original_filename.valid_encoding?
  end
</code>
</pre>
```

This code is from <http://developer.uservoice.com/entries/how-to-upgrade-a-rails-2.3.14-app-to-ruby-1.9.3/>
