- Target version set to 3.2.0

- Status changed from Ready for review to Closed

Thanks, I was able to reproduce it, the fix is in commit:20448c7.

One note though: it is very hard (at least for me) to understand what you mean when you just paste code. In your response here for example you have pasted a very long response, but "it doesn't depend on the type of the database, it has to be empty" would probably have been enough. Could you try writing a response more often (even if it's automatically translated) instead of just pasting code or output? Thanks :-)

2012-05-20 10:03 am - Toshi MARUYAMA

I described "On empty database" at description.

2012-05-20 11:18 am - Felix Schäfer

I know, I didn't mean the description, though it seems I didn't completely understand what you meant, but note #2 which took me a long time to understand.

2012-05-20 11:44 am - Toshi MARUYAMA

You said "I could not reproduce this".

So, I post *full* log.
