ChiliProject - Bug # 876: jQuery.menu_expand is not a function

Status:	Declined	**Priority:**	Normal
Author:	Peter Mathis	**Category:**	User interface
Created:	2012-02-09	**Assignee:**	
Updated:	2012-03-07	**Due date:**	

Remote issue URL:	
Affected version:	
Description:	after upgrading to 3.0 my firebug is moaning about:

<pre>
jQuery.menu_expand is not a function
</pre>

chrome says it this way:

<pre>
Uncaught TypeError: Object function (a,b){return new d.fn.init(a,b,g)} has no method 'menu_expand'
</pre>

which I think is pretty much the same

What view is this on, and what are the steps to trigger it?

2012-03-01 06:48 am - Peter Mathis

this is on the "issues" view. firebug output:

<pre>
jQuery.menu_expand({ menuItem: '.issues' });
-----
jQuery.menu_expand is not a function
https://xxx.yy/chiliproject/issues/666
Line 215
</pre>

2012-03-07 08:20 pm - Felix Schäfer

Can you reproduce it on chiliproject.org itself? I can't see it hereâ€¦

2012-03-07 09:31 pm - Peter Mathis

hm ... not on chiliproject.org indeed.

well, this inline javascript statement on our chili which produces the error isn't in the source code on chiliproject.org: (/issues/xxx browser source code with line numbers)

<pre>
215: <script type="text/javascript">
216: //<![CDATA[
217: jQuery.menu_expand({ menuItem: '.issues' });
218: //]]>
219: </script>
</pre>

also, when i'm grep-ing through our chili, this inline js isn't - at least not obvious enough for me - in the code.

i'm on release-v3.0.0 ... strange ...

ok, just figured out that we've installed redmine_lightbox plugin. if I remove this, the jquery error ist gone. redmine_lightbox also includes jquery 1.5.1 which overrides the $.menu_expand enhancement before ... evil knievel ...

- Status changed from Declined to Closed

i've forked redmine_lightbox and fixed this plugin issue and mentioned it in [[Plugin_Compatibility]]

maybe someone wants to verify this ...

Thanks a lot for the feedback and the updated plugin.

(note: closed is for issues which have been fixed in ChiliProject, as this is not a ChiliProject bug per se, its final status is declined)
