

ChiliProject - Bug # 882: Right click context menu doesn't show submenu icon.

Status:	Closed	Priority:	Normal
Author:	Andrew Smith	Category:	User interface
Created:	2012-02-14	Assignee:	Felix Schäfer
Updated:	2012-02-24	Due date:	
Remote issue URL:			
Affected version:	3.0.0		
Description:	When using the right click menu on issues there's no submenu icon/arrow shown. In the context_menu.css file there is a selector that is meant to show a background icon but the markup for menu items has changed and the selector doesn't match any more. I've attached a patch that works with the new markup and doesn't need the 16x16 pixel image to be used. It also changes colour on :hover like the text for the menu item.		

Associated revisions

2008-03-29 11:54 am - Jean-Philippe Lang

Fixed: migrate_from_trac doesn't import timestamps of wiki and tickets (patch #882 by Andreas Neuhaus slightly edited).
