Ok, this is either "redmine:#7197":<http://www.redmine.org/issues/7197> (fixed in "redmine:r4575":<http://www.redmine.org/projects/redmine/repository/revisions/4575>) or "redmine:#7195":<http://www.redmine.org/issues/7195> (fixed in "redmine:r4576":<http://www.redmine.org/projects/redmine/repository/revisions/4576>), depending on configuration/use-case.

This might be fixed in commit:03d4ecbbff99492cf96695a87d39ce20c0692a4f. I'll need to setup chiliproject.org's incoming mail handler again to test it on our next deploy.

**2011-02-14 07:09 am - Felix Schäfer**

The 2 commits that fixed it for us where merged during the code review+merge, we can lose if that's enough of a test for you :-)

- Status changed from Open to Closed

Closing this as I consider it fixed. If someone still has problems with this, please open a new issue and link to this one, thanks.
