<b>Affected version:</b>	2.4.0		
<b>Description:</b>	<p>I've found a bug in the copy issue workflow feature.</p> <p>I'm on chiliproject version 2.4.0</p> <p>actually it's ChiliProject 2.4.0.ee543489f (just noticed I'm not on a tag :/)</p> <p>Step to reproduce:</p> <ul style="list-style-type: none"><li># --&gt; Administration</li><li># --&gt; Workflow</li><li># choose Developer / Bug (Role / tracker)</li><li># remove any check on the first section</li><li># set up some checks on the Author and Assigned sections</li><li># save</li><li># --&gt; copy</li><li># source: Developer / Bug</li><li># target: Developer / Everything but Bug</li><li># click copy</li></ul> <p>expected result: every other tracker is exactly the same as Bug</p> <p>actual result: every other tracker has the same checks but for the main section (even if not the author/assigned)</p>		

### Associated revisions

#### 2008-03-20 08:25 pm - John Goerzen

Revert "Make an issue's done\_ratio field adjustable from the right-click"

Reverts commit r1277

fixes #904

refs #641

This had been working for me in testing for some time, but received issue #904 saying it broke the context menu. I was able to make it do so on a new project as well. Will revert and comment in #641 about this.

#### 2008-03-21 06:32 pm - Jean-Philippe Lang

Add done\_ratio to the right-click context menu.

Closes #904 (back\_to variable used in patch #641 and in r1277 is no longer defined).

Correctly copy advanced workflow settings #904

Original commit message:

Fixed: Workflow copy does not copy advanced workflow settings

git-svn-id: <svn://rubyforge.org/var/svn/redmine/trunk@6148> e93f8b46-1217-0410-a6f0-8f06a7374b81

## History

I've hit this issue again.

Any news about it? have you been able to reproduce?

Can I do something to help you?

I didn't upgraded chiliproject yet (for issues with plugins being not supported anymore - Mylyn).

Reading the revisions associated it seems apparently closed, did you forgot to close the ticket? which version solve this?

Nope, the associated revisions have mistakenly been added when we reset the repository cache, sorry.

I'll try to see about this this WE.

**2012-08-05 03:01 pm - Felix Schäfer**

If I understood you correctly I can reproduce this.

**2012-08-06 08:23 am - Felix Schäfer**

- Remote issue URL set to <http://www.redmine.org/issues/8739>

- Status changed from *Open* to *Closed*

- Target version set to *3.4.0*

Committed in commit:a2f8557

**2012-08-06 08:51 am - Daniele Segato**

Hi Felix, thank you for fixing.

I see this will be available with 3.4.0, do you plan any backport to previous versions?

I installed cloning git repository so I could also cherry-pick that commit, do you think it will work on Chiliproject 2.4.0 ?

This is not a security fix, so no.

> I installed cloning git repository so I could also cherry-pick that commit, do you think it will work on Chiliproject 2.4.0 ?

It should work with an older ChiliProject.
