

ChiliProject - Bug # 939: GMail documentation in configuration.yml.default out of date

Status:	Closed	Priority:	Normal
Author:	Gregor Schmidt	Category:	Mail Sending
Created:	2012-03-20	Assignee:	
Updated:	2012-03-20	Due date:	
Remote issue URL:			
Affected version:			
Description: I just stumbled upon the outdated documentation of GMail smtp setup in the @config/configuration.yml.default@. The wiki on cp.o already contains a working version, the settings in the above mentioned file do not work. I've added a simple pull request which updates the file to the current version of the [[Email_Delivery wiki page]].

If 'Display subprojects issues on main projects' is set to false:

- * do not include subprojects in the issue count of the parent project overview (#939)
- * do not include subproject timelogs on the parent project (#848)

[#939] Update documentation for GMail setup

It now matches the current guide in ChiliProject Wiki at

https://www.chiliproject.org/projects/chiliproject/wiki/Email_Delivery#SMTP-server-using-TLS-GMail

- Assignee deleted (Gregor Schmidt)

- Status changed from Open to Ready for review

The pull request may be found at <https://github.com/chiliproject/chiliproject/pull/165>

2012-03-20 09:24 pm - Felix Schäfer

Other than copying the blurbs from the wiki, have you confirmed that those do work? ;-)

2012-03-20 09:42 pm - Gregor Schmidt

Yes, I'm using these settings on my server and I am successfully receiving the test mails.

2012-03-20 09:45 pm - Felix Schäfer

- Assignee set to Felix Schäfer

Great, thanks!

2012-03-20 09:52 pm - Felix Schäfer

- Target version set to 3.1.0

- Assignee deleted (*Felix Schäfer*)

- Status changed from *Ready for review* to *Closed*

Committed in commit:c9a403a, thanks!
