

ChiliProject - Feature # 998: Default timezone

Status:	Open	Priority:	Low
Author:	Alim Özdemir	Category:	Time entries
Created:	2012-04-25	Assignee:	
Updated:	2012-05-29	Due date:	
Remote issue URL:			
Affected version:			
Description:	The default timezone should be configurable in the admin settings. May be not much needed in worldwide applications, but really helpful for small local instances with a server standing at the other end of the world.

History

2012-05-29 02:07 pm - Alim Özdemir

Just for the record, the "associated revision" on the right has nothing to do with this ticket, it's four years old and references Redmine-Projects own ticket no. 998.
